SIEMENS

Installation Instructions
Model CAB-55-BRKT and CAB-100-BRKT

CAB-BATT Brackets for 55 AH and 100 AH Batteries

INTRODUCTION

The Model CAB-55-BRKT (S54430-B1-A1) and CAB-100-BRKT (S54430-B2-A1) from Siemens Inudstry, Inc., are battery brackets that can be purchased separately as options for use in Seismic applications of CAB-BATT battery boxes.

NOTE

CAB-55-BRKT and CAB-100-BRKT are for indoor use only in dry environments.

INSTALLATION

WARNING

Remove all system power before installation, first battery then AC. (To power up, connect the AC first, then the battery.)

CAB-55-BRKT

(Refer to Figure 1.)
Prior to installing the CAB-55-BRKT in a CAB-BATT, install the CAB-BATT following the instructions for Seismic applications as described in P/N 315-033917-7 or higher.

1. Place the two 55AH batteries in the CAB-BATT.
2. Place the CAB-55-BRKT in the CAB-BATT battery box by aligning the holes in the bracket with the four studs near the top of the battery box and four of the five studs on the bottom of the battery box as shown in Figure 1.
3. Secure in place with the eight #10-32 nuts (provided).
4. Connect the Battery Wire Assembly as described in the CAB-BATT instructions, P/N 315-033917.

CAB-100-BRKT

(Refer to Figure 2.)
Prior to installing the CAB-100-BRKT in a CAB-BATT, install the CAB-BATT following the instructions for Seismic applications as described in P/N 315-033917-7 or higher.

1. Place the two 100AH batteries in the CAB-BATT.
2. Place the CAB-100-BRKT in the CAB-BATT battery box by aligning the holes in the bracket with the four studs near the top of the battery box and five studs on the bottom of the battery box as shown in Figure 2.
3. Secure in place with the nine #10-32 nuts (provided).
4. Connect the Battery Wire Assembly as described in the CAB-BATT instructions, P/N 315-033917.
